Problem-Solving
Microsoft Office

Experience

Frontend Intern – Frontend Simplified July 2020 – December 2022

- Engineered 2 scalable, responsive, multi-platform and SEO friendly websites using HTML5, CSS3, JavaScript
- Employed ES6+ and React best practices
- Assisted with maintenance and upkeep of frontend applications.
- Tested user interfaces on desktops, tablets and cellular devices and independently resolved 25-50 failures.

UI/UX Certificate Projects:

HarvardX – 2023

Chrome Extension Project:

- Developed a Chrome extension utilizing HTML, CSS, JSON, and JavaScript.
- Designed and executed user interface components for seamless integration with the browser increasing user productivity by 50-60%.
- Employed functionality and features to enhance the browsing experience for users by removing 100% of browser distractions.
- Independently launched the extension on the Chrome Web Store, ensuring successful publication.
- Received positive feedback from users for the innovative features and user-friendly design.
- Completed 1 month ahead of deadline

Personal Portfolio Project:

FES – 2023

- Created a personal portfolio website using HTML, CSS, and JavaScript.
- Designed and assembled a visually appealing user interface with customized UI components.
- Incorporated interactive elements that respond to the user's cursor movements, enhancing user engagement.
- Showcased projects, skills, and achievements effectively to create a compelling online presence.
